

Padding and Lining

Soft Velvet Edging Strip

GENERAL PRODUCT INFORMATION

Soft velvet edging strip is a thin, soft, stretchable, elastic and self-adhesive textile lining material. It is used as an edging material on orthoses, external immobilization devices and rehabilitation aids.

PRODUCT RANGE

Soft velvet edging strip is available on rolls of 1 mm (1/25") thickness x 25 mm (1") width x 2500 mm (8' 2.5") length.

Article Number	Description 1 BC
35116	Soft Velvet Edging Strip - Black

PRECAUTIONS BEFORE USE

- Pull the loose end of the edging strip out of the package incision and cut the required length of material with a suitable pair of scissors.
- Remove the protective paper foil from the back (self-adhesive) side of the strip and stick the soft velvet edging strip on the edges of the orthosis after trimming.
- Make sure that half of the strip covers the inside surface of the orthosis edge and that the other half covers the outside part of the orthosis edge.
- The soft velvet edging strip can still be easily removed immediately after application. After a while, this will be difficult.

MAINTENANCE

- The material must be cleaned daily. Use lukewarm water and disinfecting soap or pre-moistened isopropanol wipes. Rinse well and dry thoroughly.
- Sterilization of the product in an autoclave is impossible. Sterilization by means of gas treatment is possible. Disinfection is possible with alcohol, quaternary ammonium or a solution of commercial disinfection soaps (HAC®, Sterilium®, etc.).
- **Never use solvents.**

WASTE MANAGEMENT

- After use, the product can be disposed of with normal household waste without harming the environment.
